Tip: sign in as the teacher account to see the full workflow (cohorts, capture, field tests, reports). The owner account only manages schools and licences.

What's inside

Cohort	Demonstrates
Grade 8B 2026 (26, fully tested)	The flagship report: family distribution, sports within & beyond the school's offering, and the discrepancy flags — where hidden talent hides. Print class + per-learner reports.
Grade 10A 2026 (24, partly tested)	A realistic mid-season state (17 of 24 tested); older, stronger cohort.
Grade 8A 2025 (28)	Last year's cohort — powers the year-over-year school overview.
Grade 5 Blue 2026 (24)	Foundation mode (ages ±9–12): breadth only, no rankings — by design and evidence.

A 3-minute tour

- Open **Grade 8B 2026** → **3 · Report**; read the family distribution and the two sport tallies.
- Scroll to **Discrepancy flags** — the talent-ID payload. L14 believes "Power/Contact" but measures top Endurance; L21 believes "Reading/Teamwork" but tops the reaction test.
- Click **Print learner reports** — one branded A4 per learner for parents or coaches; then **Download CSV**.
- Go ← **All cohorts** and read the **year-over-year school overview**; open **Grade 5 Blue** to see Foundation mode withhold verdicts.

Companion documents: the **Teacher & School User Manual** and the **Evidence, Ethics & POPIA Pack** (in the portal and the docs library). The free single-class preview: sportsmart4life.co.za/talent-radar.php.

All learners, codes and results here are computer-generated and represent no real person.
